

1. Chemical Product and Company Identification

Product Name	Suppleyes Super Concentrate No Rinse Sanitiser
Other Means of Identification	Unperfumed food safe sanitiser
Product Code	
Product Use	No rinse sanitiser for food preparation areas
Supplier	Suppleyes
ABN	36 164 719 108
Mail Address	Unit 38/8 Distribution Court Arundel QLD 4214
Email	info@suppleyes.com.au
Telephone:	7 55 949 452
Emergency Telephone:	Poisons Information Centre (National) 131126

2. Hazards Identification

Classification of the substance or mixture

HAZARDOUS CHEMICAL. NON-DANGEROUS GOODS. According to the WHS Regulations and the ADG Code.

Poisons Schedule None

GHS Classification	Skin Corrosion / Irritation– Category 2 Acute Toxicity - Oral – Category 4 Serious Eye Damage / Irritation- Category 2
---------------------------	--

GHS Label Elements

SIGNAL WORD **Warning**

Hazard Statement(s)

H 302 + H312 H315 + H320	Harmful if swallowed or in contact with skin. Causes skin and eye irritation.
-----------------------------	--

Prevention(s)

P 102 P 103 P 264	Keep out of reach of children. Read label before use. Wash hands thoroughly after handling.
-------------------------	---

Safety Data Sheet

Suppleyes Super Concentrate No Rinse Sanitiser

P280 | Wear protective glove

Refer to the SDS before using the product

Response

P301+P330+P331 | IF SWALLOWED : Rinse mouth. Do NOT induce vomiting.

P303+P361+P353 | IF ON SKIN (or hair): Remove immediately all contaminated clothing. Rinse skin with water.

P305+P351+P338 | IF IN EYES : Rinse cautiously with water for several minutes . Remove contact lenses, if present and easy to do. Continue rinsing.

P352 | (After handling) Wash hands thoroughly with soap and water.

P363 | Wash contaminated clothing before reuse.

Storage

P405 | Store locked up

Disposal

P501 | If they can not be recycled, dispose of contents to an approved waste disposal plant and containers to landfill (see Section 13 of this SDS).

3. Composition/Information on Ingredients

(Listed when present at 1% or greater, carcinogens at 0.1% or greater)

Chemical Name	CAS Registry Number	% Weight	Hazard Information
Benzalkonium chloride	8001-54-5	<5	H290 May be corrosive to metals. H302 Harmful if swallowed. H314 Causes severe skin burns and eye damage. H400 Very toxic to aquatic life.
Didecyl dimethyl ammonium chloride	7173-51-5	<5	H301: Toxic if swallowed H314: Causes severe skin burns and eye damage H318: Serious eye damage Category 1 H400: Acute aquatic toxicity Category 1 H412: Harmful to aquatic life with long lasting effects
Water	7732-18-5	To 100	None

The SWA TWA exposure value is the average airborne concentration of a particular substance when calculated over a normal 8 hour working day for a 5 day working week. The STEL (Short Term Exposure Limit) is an exposure value that may be equaled (but should not be exceeded) for no longer than 15 minutes and should not be repeated more than 4 times per day. There should be at least 60 minutes between successive exposures at the STEL. The term "peak" is used when the TWA limit, because of the rapid action of the substance, should never be exceeded, even briefly.

4. First Aid Measures

General	For advice, contact a Poisons Information Centre (Australia 13 11 26) or a doctor. If swallowed, do NOT induce vomiting. Immediately give a glass of water.
Inhalation	If fumes, aerosols or combustion products are inhaled remove from contaminated area. Other measures are usually unnecessary.
Skin	If skin contact occurs: Immediately remove all contaminated clothing, including footwear. Flush skin and hair with running water (and soap if available). Seek medical attention in event of irritation.
Eyes	If this product comes in contact with the eyes: Wash out immediately with fresh running water. Ensure complete irrigation of the eye by keeping eyelids apart and away from eye and moving the eyelids by occasionally lifting the upper and lower lids. Seek medical attention without delay; if pain persists or recurs seek medical attention. Removal of contact lenses after an eye injury should only be undertaken by skilled personnel.
Ingestion	If swallowed do NOT induce vomiting. If vomiting occurs, lean patient forward or place on left side (head-down position, if possible) to maintain open airway and prevent aspiration. Observe the patient carefully. Never give liquid to a person showing signs of being sleepy or with reduced awareness; i.e. becoming unconscious. Give water to rinse out mouth, then provide liquid slowly and as much as casualty can comfortably drink. Seek medical advice.
Symptoms Caused by	Prolonged skin contact may result in dermatitis or reddening of the skin.

Indication of any immediate medical attention and special treatment needed

Treat symptomatically.

5. Fire Fighting Measures

Extinguishing Media	The product contains a substantial proportion of water, therefore there are no restrictions on the type of extinguishing media which may be used. Choice of extinguishing media should take into account surrounding areas. Though the material is non-combustible, evaporation of water from the mixture, caused by the heat of nearby fire, may produce floating layers of combustible substances. In such an event consider: foam.
Fire Fighting	Alert Fire Brigade and tell them location and nature of hazard. Wear breathing apparatus plus protective gloves in the event of a fire. Prevent, by any means available, spillage from entering drains

Suppleyes Super Concentrate No Rinse Sanitiser

Fire and Explosion Hazards

or water courses.
 Use fire fighting procedures suitable for surrounding area.
 Non combustible.
 Not considered to be a significant fire risk.
 Expansion or decomposition on heating may lead to violent rupture of containers.
 Decomposes on heating and may produce toxic fumes of carbon monoxide (CO).
 Decomposes on heating and produces toxic fumes of: carbon dioxide (CO₂), hydrogen chloride, phosgene, nitrogen oxides (NO_x), other pyrolysis products typical of burning organic material

6. Accidental Release Measures

Personal precautions, protective equipment and emergency procedures

Minor Spills

Clean up all spills immediately.
 Avoid breathing vapours and contact with skin and eyes.
 Control personal contact with the substance, by using protective equipment.
 Contain and absorb spill with sand, earth, inert material or vermiculite.

Major Spills

Slippery when spilt.
 Moderate hazard.
 Clear area of personnel and move upwind.
 Alert Fire Brigade and tell them location and nature of hazard.
 Wear breathing apparatus plus protective gloves.
 Slippery when spilt.

Personal Protective Equipment advice is contained in Section 8 of the SDS.

7. Precautions for handling and storage

Precautions for safe handling

Precautions for Safe Handling

Limit all unnecessary personal contact.
 Wear protective clothing when risk of exposure occurs.
 Use in a well-ventilated area.
 Avoid contact with incompatible materials.
 DO NOT allow clothing wet with material to stay in contact with skin

Other Information

Store in original containers.
 Keep containers securely sealed.
 Store in a cool, dry, well-ventilated area.
 Store away from incompatible materials and foodstuff containers.

Conditions for safe storage, including any incompatibilities

Suitable containers

Lined metal can, lined metal pail/ can.
 Plastic pail.
 Polyliner drum.
 Packing as recommended by manufacturer.

Storage Incompatibility

None known

8. Exposure controls /personal protection

National Exposure Standards	An exposure standard has not been established for this product.
Engineering Controls	Use in well-ventilated area
Personal Protection	
Eyes/Face	Safety glasses
Hands	Rubber gloves. Avoid skin contact.
Skin	Not generally required when used as per label directions. Avoid skin contact.
Respiratory	Not generally required when used as per label directions. Avoid inhaling spray mist.

9. Physical and chemical properties

Physical Description & colour:	Clear blue mobile liquid.
Odour:	Unperfumed
Boiling Point:	Approximately 100°C at 100kPa.
Freezing/Melting Point:	Lower than 0° C.
Volatiles:	95% Water.
Vapour Pressure:	No data.
Vapour Density:	No data.
Specific Gravity:	1.02
Water Solubility:	Completely soluble in water.
pH:	7.0-8.0
Volatility:	No data.
Odour Threshold:	No data.
Evaporation Rate:	No data
Coeff Oil/water distribution:	No data

10. Stability and Reactivity

Chemical Stability	The product is stable under normal conditions
Possibility of Hazardous Reaction	None known
Conditions to Avoid	Extreme heat and temperatures
Incompatible Materials	Strong oxidizing agents
Hazardous Decomposition Products	None known

11. Toxicological information

Toxicology Information	No toxicity information is available for this product.
Inhalation	Aspiration (breathing in) of liquid spray or mist liable to cause severe irritation and damage to respiratory tract.

Suppleyes Super Concentrate No Rinse Sanitiser

Ingestion	Quaternary ammonium salts in high concentrations are irritant. May cause gastric upset.
Skin	Will have a degreasing effect on the skin which may lead to irritation on prolonged contact with the concentrate.
Eye	Irritant.
Chronic Effects	Repeated skin contact with the concentrate may lead to dermatitic effects.

12. Ecological information

Avoid contaminating waterways.

Acute aquatic hazard	This material has been classified as not hazardous for acute aquatic exposure. Acute toxicity estimate (based on ingredients): > 100 mg/L, Quaternary Ammonium Compound 96hr EC50 (rainbow trout): 0.064mg/L
Long-term aquatic hazard	This material has been classified as not hazardous for chronic aquatic exposure. Non-rapidly or rapidly degradable substance for which there are adequate chronic toxicity data available OR in the absence of chronic toxicity data, Acute toxicity estimate (based on ingredients): >100 mg/L, where the substance is not rapidly degradable and/or BCF < 500 and/or log Kow < 4.
Ecotoxicity	No data available
Persistence/Degradability	No data available
Bio-accumulative Potential	No data available
Mobility in Soil	No data available

13. Disposal considerations

Disposal	Containers should be emptied as completely as practical before disposal. If possible, recycle product and containers either in-house or send to recycle company. If this is not practical, send to a commercial waste disposal site.
----------	--

14. Transport Information

UN Number	This product is not classified as a Dangerous Good by ADG, IATA or IMDG/IMSBC criteria. No special transport conditions are necessary unless required by other regulations.
-----------	---

15. Regulatory Information

Suppleyes Super Concentrate No Rinse

AICS	All of the significant ingredients in this formulation are compliant with NICNAS regulations.
------	---

16. Other information

Abbreviations

AICS	Australian Inventory of Chemical Substances
CAS Number	Unique Chemical Abstracts Service Registry Number
EC50	Ecotoxic Concentration 50% — concentration in water which is fatal to 50% of a test population (e.g. daphnia, fish species)
ES	Exposure Standard - The airborne concentration of a biological or chemical agent to which a worker may be exposed in a work day
GHS	Globally Harmonised System of Classification and Labelling of Chemicals
HAZCHEM Code	Emergency action code of numbers and letters that provide information to emergency services, especially fire fighters
IARC	International Agency for Research on Cancer
LEL	Lower Explosive Limit
LD50	Lethal Dose 50% — dose which is fatal to 50% of a test population (usually rats).
LC50	Lethal Concentration 50% — concentration in air which is fatal to 50% of a test population (usually rats)
NICNAS	National Industrial Chemicals Notification and Assessment Scheme
Peak Limitation	Peak Exposure Value: The maximum airborne concentration of a biological or chemical agent to which a worker may be exposed at any time.
SDS	Safety Data Sheet
STEL	Short Term Exposure Limit - The maximum airborne concentration of a chemical or biological agent to which a worker may be exposed in any 15 minute period, provided the TWA is not exceeded
TWA	Time Weighted Average — generally referred to ES averaged over typical work day (usually 8 hours)
UEL	Upper Explosive Limit
UN Number	United Nations Number
